

Antofagasta, Chile, June 03, 2015

## **Engineer Fredy Zuleta Dávila has been appointed Chief Executive Officer of Aguas de Antofagasta (ADASA), the new subsidiary of EPM Group in Chile.**

- **Contributing to the construction of sustainable and competitive territories is one of the challenges of the new executive**
- **ADASA delivers services of production and distribution of potable water, and collection and disposal of served waters**

EPM, the Colombian economic group, announced this past Wednesday June 3, Fredy Zuleta Dávila's appointment as new Chief Executive Officer of its subsidiary in Chile, Aguas de Antofagasta (ADASA); he assumes the challenge of leading this water and sanitation company.

Mr. Zuleta Dávila is a civil engineer of Escuela de Ingeniería de Antioquia and an economist of Universidad Cooperativa de Colombia. He has a Master's of Science in Business Economics of Bentley College, United States.

Among the new CEO's wide professional experience the following stand out: International Businesses Director of Remaster América, Service General Manager for Latin America of O-tek Internacional, President of Tracker in Brazil, Central American Region President of Tracker (VSR Group), President of EPM Bogotá Aguas, Commercial Regulation Deputy Manager of EPM, Administration and Finance Deputy Manager of EPM Aguas and Head of the Economic Studies Division of Conavi. He has also lectured at major educational institutions.

Mr. Zuleta Dávila will be in charge of leading ADASA's general planning, generation of corporate policies and establishment of strategic objectives in order to achieve high performance standards and positive relations with its different stakeholders.

When accepting his appointment, Mr. Zuleta Dávila thanked EPM Group's management group for the opportunity posed by this professional challenge stating that he will work with the company's human talent to continue delivering public utilities of outstanding quality that contribute to the well-being and life quality of the community.

EPM Group's management group thanked the endeavors of civil engineer Hugo Masana Sepúlveda, former Chief Executive Officer of ADASA, and wished him success in his new projects.

In operation since 2003, ADASA delivers services of production and distribution of potable water and collection and disposal of served waters in the towns of Tocopilla, Taltal, Mejillones, Sierra Gorda and Baquedano, and of potable water in Antofagasta and Calama, in the Chilean Northern Atacama desert region. Additionally, the company has desalination plants in Taltal and Antofagasta, the latter, the largest in Latin America. ADASA is the second investment of EPM Group in Chile, where it is already present with the Los Cururos wind park inaugurated in October of 2014.

## About EPM Group

EPM Group is a Colombian economic group with presence in Colombia, Chile, El Salvador, Guatemala, Mexico and Panama and businesses in water, sanitation, gas, solid waste management, generation, transmission and distribution of energy, and waste water management.
