

Relevant Information

On August 31, 2023, EPM published the Analysis and Conclusions Report on the Te Cuento portal of the EPM group, which contains the evaluation of the bids submitted in the CRW 256463 contracting process, whose purpose is the construction of the final civil works for the entry into commercial operation of units 5 to 8 of the Ituango Hydroelectric Project. This report will be available on page www.epm.com.co for a period of three working days for bidders to submit observations or express their objections to it.
